C/o MV Anderson, Level 5, North Tower, 485 Latrobe Street,  
Melbourne, Victoria, 3000, Australia

---

## **Become a Member and influence the future.**

The Australasian TETRA and Critical Communications Forum (ATCCF) is the Australasian chapter of The Critical Communications Association (TCCA) that is the front line force that drives the development and promotion of open standard critical communications solutions worldwide.

As a stakeholder in critical communications, you can play a key role in the ongoing success of an open and competitive market, today and in the future. The ATCCF in cooperation with the global TCCA organisation advise and inform the critical communications market and its stakeholders, from governments to end-users, and have a strong influence on the direction of the industry working with standardisation bodies ETSI and the 3GPP group.

The TCCA is a catalyst in the evolution of critical LTE towards becoming a true global open standard critical communications bearer. In parallel, we provide the central role in the further development and enhancement of the TETRA standard, and support users with advice on other open standards of critical communication technologies (DMR).

- *The ATCCF and the TCCA are membership organisations. As a Member you will join other like-minded organisations across the world whose success is dependent upon critical communications – you can help secure that success.*
- *As an ATCCF Member, you have the opportunity to be part of the evolution of our industry, to share the knowledge and expertise of other ATCCF/TCCA Members and partner organisations, and to actively participate in determining the future of critical communications.*
- *Only by working together can we continue to make the difference that creates success for our Members.*

## Member categories of the ATCCF

Student and Individual Membership: Users, Consultancies and Associate Membership; Vendors, Distributors, Integrators, Test-houses and Operator Membership; Corporate Membership and Corporate Sponsorship.

**For 2018 Membership categories and Membership fees please refer to the attached schedule.**

- Access to restricted, member only, technical and marketing information including presentations and reports with a unique username and password in the TCCA Members only area for use in your own organization
- Access to ATCCF and TCCA website and social media channels, your press releases posted on [www.criticalcommsforum.com.au](http://www.criticalcommsforum.com.au) and [www.tcca.info](http://www.tcca.info) and social media for the world to see
- Be listed as a Member on the ATCCF website linked to your company website to reference to your major areas of work
- Annual ATCCF Membership Certificate and branding at events supported by ATCCF recognising your Company participation
- Authorized Access to unique ATCCF and TETRA branding, only available to ATCCF and TCCA Members the instantly recognised and unique TETRA logo and brand image

ATCCF and TCCA Members are also invited to contribute to, or participate in, the many influential global Working Groups within the TCCA. These include:

- *Applications Working Group*
- *Broadband Industry Group*
- *Critical Communications Broadband Group*
- *International Critical Control Rooms Alliance*
- *Marketing Group, Operator User Association*
- *SCADA, Smart Grid and Telemetry Working Group*
- *Security and Fraud Prevention Group*
- *Technical Forum*
- *TETRA Industry Group*
- *Transportation Group that include the Rail industry*

By participating in any of the Working Groups and having access to the Members Only area of our TCCA website, members gain early access to new technical documents, white papers and participate in the member enquiry stages to express their views prior to publication.

There are many reasons for joining the Australasian TETRA and Critical Communications Forum (ATCCF) as a member and influence the future of critical communications.
